EDUCATION

University of Guelph

Bachelor of Computer Engineering

Guelph, ON

2024 – Present

- Relevant Coursework: Chemistry, Electricity & Magnetism, Engineering Analysis, Object-Oriented Programming

Centre Wellington District High School

Grade 12 Honors; Specialist High School Major in Information Communication Technology

Fergus, ON

2020 – 2024

EXPERIENCE

Computer Engineering Teaching Assistant (Co-op)

Centre Wellington DHS

2022 – 2023

Fergus, ON

- Researched and prepared structured learning materials, translating complex technical concepts into accessible content for diverse audiences
- Collaborated with instructors across multiple ongoing workstreams, managing competing priorities and keeping deliverables on schedule
- Maintained organized records of student progress and classroom resources, ensuring information was accurate and readily accessible

Cybersecurity Team Lead (CyberTitan)

Centre Wellington DHS

2023 – 2024

Fergus, ON

- Led a team through multi-round national competition, coordinating tasks, tracking progress, and maintaining detailed procedural documentation
- Conducted independent research into system vulnerabilities and mitigation strategies to inform team planning and decision-making

Back-of-House Team Member

Elora Brewing Company

2023

Elora, ON

- Operated reliably in a fast-paced environment, following precise procedures and collaborating with the team to maintain consistent workflow

PROJECTS

Campus Event Booking System | *Java, JavaFX, JUnit 5*

2025

- Led a five-person team through full project lifecycle, coordinating tasks, tracking risks, and maintaining documentation across all deliverables
- Facilitated team communication and alignment on goals, ensuring timely completion of milestones and follow-through on action items

Hardware Temperature Monitor | *Arduino IDE, C/C++*

2026

- Designed and executed a structured testing methodology, collecting and analyzing sensor data to identify performance trends and validate results
- Produced clear technical documentation throughout development, from initial design specifications through to final test reporting

Plant Identification and Care App | *JavaScript, React Native, API Integration*

2025

- Independently scoped, researched, and built a working mobile application, managing the full development process from planning to deployment

TECHNICAL SKILLS

Software: Microsoft Office Suite (Word, Excel, PowerPoint, Outlook) — daily use; Git, VS Code

Languages: Java, Python, C, C++, JavaScript, Bash

Research & Documentation: Technical report writing, experimental methodology, data collection and analysis, desktop research

Concepts: Project coordination, risk tracking, cross-functional collaboration, version control, process documentation
